USES OF GERMICIDAL SOAPGermicidal Soap is a cleanser, deodorant and disinfectant.

there is the slightest danger of skin trouble or contagious diseases
of any sort.It is useful in the treatment of boils, pimples, head lice,
ringworm, barber's itch, prickly heat, cuts, wounds and abrasions.
It is invaluable as a shampoo.As an agent for ridding the body (feet, armpits, genitalia)
of perspiration odors it is very effective.A solution of it may be employed as a disinfectant wash for
the hands and feet. It is also valuable for sterilizing bed linen,
handkerchiefs, etc., used in the sick-room.Germicidal Soap should be applied freely in the form of a

green and white, the dining room
pink and white, and the gift room
was a combination of colors of cut

membrance gifts show the esteem in
which the young couple are held.Mr. and Mrs. Harris on their re-
turn will go to their new home on
